Freshman "O" Schedule	
Tuesday, September 3	
11:00 a.m.	Registration and Reception - in your assigned residence hall. Commuting students will register in the lower level of the Student Union Building.
11:30 a.m.	Campus tours - departing from your registration point.
12:00 p.m.	Lunch - Main Dining Room. (11:00 a.m. - Deming Hall and commuting students. 11:45 a.m. - Speed Hall. 12:30 p.m. - BSB, Mees and other halls.)
2:00 p.m.	Opening Session - Brown Football Field.
3:30 p.m.	Freshman Information Session - Auditorium of Moench Hall.
4:00 p.m.	Meeting in Auditorium of Moench Hall for all students assigned workstudy funds.
4:45 p.m.	Free Time.
5:00 p.m.	Meeting for commuting freshmen in the Union snackbar.
4:45 - 6:15 p.m.	Dinner - Main Dining Room.
6:30 - 9:00 p.m.	Chemistry Placement Exam in Auditorium of Moench Hall.
Thursday, September 4	
7:00 - 8:30 a.m.	Breakfast - Main Dining Room.
8:00 - 11:00 a.m.	Computer Science Placement Exam (optional) in Auditorium of Moench Hall.
11:00 a.m. - noon	Rose-Hulman History and Traditions in GM room of Moench Hall. (Students Robbie Abell through George Farber.)
11:00 a.m. - 12:45 p.m.	Lunch - Main Dining Room.
12:00 - 1:00 p.m.	Rose-Hulman History and Traditions in GM room of Moench Hall. (Students Scott Faust through Kenneth Krozal.)
12:00 - 5:30 p.m.	Student I.D. pictures - lobby of Student Union Building.
1:15 - 4:15 p.m.	Advanced Math Placement Exam (optional) in Auditorium of Moench Hall.
4:00 - 5:00 p.m.	Rose-Hulman History and Traditions in GM room of Moench Hall. (Students Corbert Kull through Steve Robertson.)
5:00 - 6:00 p.m.	New Games - All freshmen report to the area in front of Hadley Hall (Fieldhouse in case of rain). Guests from St. Mary-of-the-Woods will be in attendance.
6:00 - 7:00 p.m.	Cookout outside the Union.
7:00 - 9:30 p.m.	Dance on the patio outside the Union. Featuring the band "Mr. Myers".
Friday, September 5	
7:00 - 8:30 a.m.	Breakfast - Main Dining Room.
8:00 - 9:00 a.m.	Transfer Credit evaluation and Advanced Placement (AP) evaluation. GM room of Moench Hall.
9:00 - 9:30 a.m.	Foreign Language program description (optional) in Auditorium of Moench Hall.
9:30 - 10:30 a.m.	Foreign Language placement exam (optional) in GM room of Moench Hall. (German and Russian only.)
10:45 a.m. - 12:15 p.m.	Foreign Language aptitude test (optional) in GM room of Moench Hall.
11:30 a.m. - 1:30 p.m.	Lunch - Main Dining Room of Student Union.
12:45 - 2:45 p.m.	General Orientation Session - All freshmen report to Auditorium of Moench Hall.
3:00 - 6:30 p.m.	Advanced physics placement exam (optional) in room 203 of Olin Hall.
3:30 - 4:30 p.m.	Rose-Hulman History and Traditions in GM room of Moench Hall. (Students Philip Rohrbacher through Scott Zion.)
5:00 - 7:00 p.m.	Dinner - Main Dining Room of Student Union. (If you attended Operation Catapult, carry your tray to the Performing Arts Room in the rear of the Union building. If you attended the New Retupmoc, carry your tray to the Alumni Room in the rear of the Union building. These dinners start at 6:00 p.m.)
6:30 - 7:30 p.m.	Ice Cream Social on patio outside Student Union Building. Faculty and Staff will serve.
8:00 - 10:00 p.m.	Outdoor movie at St. Mary-of-the-Woods. "Dr. Detroit" will be shown.
Saturday, September 6	
7:00 - 8:30 a.m.	Breakfast - Main Dining Room.
9:00 a.m. - noon	Class registration for Fall Quarter. Report to your Faculty Advisor for registration. Your Faculty Advisor's name can be found in the Freshman Class Roster. The room you should report to was included as a separate sheet.
11:00 a.m. - 1:00 p.m.	Lunch - Main Dining Room.
1:30 p.m.	Football - MacMurray at Rose.
7:30 - 9:00 p.m.	Comedian Andy Andrews - Main Dining Room.
Sunday, September 7	
8:15 - 8:45 a.m.	Breakfast - Main Dining Room.
1:30 p.m. - 3:00 p.m.	Student Activities Fair - Main Dining Room.
7:30 - 9:30 p.m.	Movie in GM room of Moench Hall. "Gotcha" will be shown.
Monday, September 8	
8:05 a.m.	Class start.

Board says no to coeducation ...

The Rose-Hulman Institute of Technology Board of Managers decided July 11 that the college's undergraduate programs will remain all male, and continue the tradition instituted by its original benefactors over a century ago, according to Jack Ragle, chairman of the board of managers.

Ragle made the announcement following a special meeting on campus of the 40-member governing board. "This special meeting was conducted by the board to assess the results of an in-depth study of coeducation, which the board had instituted through its own fact-finding committees last fall. The committees were formed in order to update and supplement studies which have been made from time to time over a period of 20 years or more," he said.

A vote for coeducation would have meant a change in the school's charter. In order to change the charter, three-fourths of the board would have to approve the proposal. The vote was conducted by secret ballot and the results were not made

public.

By voting down the proposal, Rose-Hulman remains one of five all-male schools in the

country, excluding military academies. Of the five, Rose-Hulman is the only engineering school.

... students disagree

by Brian Evans

On July 11, seven Rose-Hulman students demonstrated for coeducation during the hour before the Board of Managers were to meet to vote on coeducation for Rose-Hulman.

Seven Rose students, calling themselves "A Vocal Majority", placed posters, picket signs, and other literature at each door of the Student Union, where the managers were to assemble. The literature included the results of three polls taken during the previous academic year and a Rose-Hulman statement on coeducation. According to the three polls referenced, both the student body and the alumni are 65 percent in favor of coeducation. The faculty are 91 percent in favor of coeducation

at Rose-Hulman. Some of the picket signs read: "The real world is coed, so why isn't Rose?" and "ROSE is 'best buy' for half: the rest await your decision".

The administration and faculty were informed beforehand about the demonstration. Officially, the administration could neither support nor stop the demonstration, so the students received the go-ahead on July 9.

The seven students involved in the demonstration were Mark Bower, Roger Davidson, Brian Evans, Dusty Lutz, Bruce Mueller, Curt Plett and Greg Sharp.

The demonstration had little direct effect on the vote because 26 of the 40 managers mailed in their votes before the meeting.

Tektronix donates digital equipment

Tektronix Inc., an international electronics manufacturer, has donated digital communications equipment valued at \$83,000 to Rose-Hulman Institute of Technology for use in one of the college's new electrical engineering laboratories.

"The equipment will be used to teach students about communication signals in general and the specific characteristics of signals transmitted in television and radio communications," said Buck Brown, chairperson of the Division of Electrical Engineering and Computer Science.

The communications laboratory where the equipment will be housed is one of several new electrical engineering facilities

Prof. Brown and Bruce Mueller test equipment.

opened in February as a result of the completion of

another phase of the renovation of Moench Hall.

E.E. Black leaves 2.6 million to Rose

Rose-Hulman Institute of Technology has been named the beneficiary of a \$2.6 million gift from the estates of Terre Haute native E.E. "Johnny" Black and his daughter, Jane E. Black, according to Samuel F. Hulbert, president of the college.

Rose-Hulman will receive \$2.2 million from the bequest of E.E. Black and \$400,000 from the Jane E. Black Trust, Hulbert said.

The gifts will make it possible for Rose-Hulman to provide its students with additional financial aid. "All the funds will be endowed for scholarships for students whose parents are engineers, contractors or construction workers," Hulbert explained.

At the time of his death eight months ago, Black, a 1911 Rose graduate, was board chairman emeritus of E.E. Black, Ltd., one of the largest construction companies in the Pacific. During his career, he directed his company's construction of many of the major hotels on Hawaii's famed Waikiki Beach as well as several governmental facilities at Pearl Harbor.

Known as one of the college's most loyal alumni and benefactors, Black also became well-known to other Rose-Hulman graduates because a Homecoming with Black on campus meant something special. Each time Black returned for Homecoming weekend he would bring with him Hawaiian musicians,

singers, dancers and other entertainers. It was during some of those Homecoming visits that his daughter, Jane, would accompany him to Rose-Hulman.

In 1964, Black received an honorary doctorate from Rose and in 1976 the E.E. Black Recreation Center was named in

his honor.

"He was an adventurer, an entrepreneur and a great philanthropist," Hulbert said. "Black was the kind of man we like to think epitomizes what Rose-Hulman tries to do. He was one of our most successful alumni and a great success story, he noted.

SAB sponsors entertainment

The Student Activities Board will be presenting two nights of entertainment for the students of Rose-Hulman during Freshman Orientation Week.

The first event will be a dance on Thursday, Sept. 4 at 7 p.m. The dance will take place on the Union patio after New Games and the cookout. The freshmen from St. Mary-of-the-Woods College will be in attendance for the dance. Mr. Myers, the band for the evening, has performed at numerous colleges and night

spots in the Midwest.

A night of comedy will be presented on Saturday, Sept. 6 at 7:30 p.m. in the Main Dining Room of the Hulman Student Union. Andy Andrews, former staff writer for the original "Saturday Night Live" show, will be presenting his own comedy routine.

Andrews has performed at Lake Tahoe, Disney World, Improv and Comedy Store in Los Angeles and hundreds of college campuses around the country.

EDITORIAL

As a member of the newest class at Rose-Hulman, you are entering an institution that has a long history of fine academic achievement. Rose-Hulman is considered to be one of the best private engineering colleges in the nation, a reputation that is well earned.

In order to get the most out of a Rose education, academically and socially, you must be willing to become a part of the school. Those who get involved in co-curricular activities are the ones who enjoy the school the most. Whether it be sports (varsity or intramural), student clubs, academic clubs or just getting to know your fellow students, you have to get involved with the school in order to get anything out of it.

Although Rose is a small school, there is a wide variety of student clubs. Whether it be a sports club (weightlifting and Goju-Ryu Karate), a media club (Thorn, WMHD, Modulus and Technic) or any of the other 30 or so groups, you have to get involved.

There are also a wide variety of academic clubs, service fraternities and social fraternities. The important thing is to find the club or clubs for you.

If you're not willing to get involved with Rose, don't expect Rose to give you much in return.

—GGH

SAB
SPOTLIGHT

In the SAB (Student Activities Board) Spotlight this week are Cary Weldy and Rodney Dick. These two have worked very hard over the summer on the Mr. Myers and Andy Andrews shows for Freshmen Orientation Week, organizing SAB's public relations material and doing the advance planning for the Homecoming Concert featuring Chicago City Limits and Taylor Mason.

The SAB Spotlight is given weekly by the President of

SAB to a member or members of SAB who made an outstanding contribution to the activities of the Board.

We would like to invite all students to stop by the SAB booth at the Activities Fair on Sunday, Sept. 7, in the Union to find out more about what exciting events the SAB is planning this year. Our first meeting will be September 11 at 7 p.m. in the WORX (lower level of Hulman Union). Hope to see you there. Together, we can make it happen!

Letters to the Editor

Editor's Note: The "Letters to the Editor" column is open to all Rose-Hulman students, faculty, administration, staff, alumni and other friends of the school. Letters should deal with a subject that concerns Rose, Rose

students, Rose faculty or any other facet of Rose-Hulman.

Letters are to be submitted the Monday before the Friday the paper is distributed. They should be typewritten and double-spaced, though it is not a requirement. All letters must be signed.

College News

Over the Summer

COLLEGE COSTS WILL RISE SIX PERCENT THIS YEAR

The College Board said it'll cost an average of \$5,604 to attend and live at a public four-year college in 1986-87, versus \$10,199 for private four-year colleges.

Two-year public college costs should average \$3,768 this year, the board added.

The most expensive private colleges: Bennington (\$16,950), Barnard, Sarah Lawrence, M.I.T., Harvard and Yale.

The most expensive public colleges this year: The Citadel (\$6,561), Colorado School of Mines, Maine Maritime Academy, Cal-Berkeley and Illinois at Chicago.

COURT: 'HARD' COURSE GOOD ENOUGH CAUSE FOR FIRING PROFESSOR

The 1st U.S. Court of Appeals said Southeastern Massachusetts University was within its rights to refuse to renew the contract of nontenured instructor James Lovelace because Lovelace refused to make his course easier for students.

Students had complained to SMU officials that Lovelace's class and grading policies were too hard.

Lovelace argued his policies followed SMU guidelines.

But the court said SMU had the right to decide what academic standards to adopt, and whether teachers were meeting those standards.

FLORIDA WEIGHS BILL TO LET POLICE COLLAR DRUNK STUDENTS QUICKLY

Scandalized by the deaths of several drunk students who fell off hotel balconies during spring break this year, the state legislature passed a bill to let police arrest without a warrant seemingly-intoxicated people who "threaten their lives or the lives of others."

Burns remembers Rose-Hulman

Rose-Hulman Institute of Technology has received a \$250,000 gift from the estate of alumnus and former Terre Haute civic leader Ruel Fox Burns, Sr., according to the college's president, Samuel F. Hulbert.

The unrestricted donation will be used where the institution's needs are greatest, Hulbert said. "Ruel Fox Burns was more than a loyal alumnus, he provided continued leadership and support that was important to the development of the college," Hulbert noted.

A 1915 Rose graduate, Burns received numerous honors from his alma mater and was a long-time member of the college's Board of Managers. In 1965, he was presented with the honorary Doctor of Engineering degree and was earlier cited as an Honor Alumnus, the highest recognition that can be presented by the Rose-Hulman Alumni Association.

Each year in his honor, the college presents its most outstanding senior athlete with the Ruel Fox Burns Blanket Award.

Burns, who died Aug. 22, 1984 in Terre Haute, served as chairman emeritus of the board of the Weston Paper and Manufacturing Co., and was president of the Weston Wabash Foundation. He was also widely known as a sportsman and hunter who authored numerous articles in national outdoorsman magazines and also wrote a book containing a collection of articles about his hunting and fishing experiences.

In addition to his involvement with Rose-Hulman, Burns' daughter, Catherine Hudson, was a member of the humanities faculty at the college and his grandson, Ruel Fox Burns III, graduated from Rose-Hulman in 1976.

Ruel F. Burns, Jr. (right) presents check in the amount of \$250,000 from the estate of his father, Ruel Fox Burns, Sr., to Rose-Hulman President Samuel F. Hulbert.

Welcome

Welcome from Dr. Hulbert

Welcome to Rose-Hulman Institute of Technology. You have come to a great place! It is no Eutopia and never will be, but that doesn't mean that the faculty, staff and administration are not committed to constantly making it a better place to receive an engineering and science education.

There is no question in my mind but what you are going to receive a superior technical education. I want you to know that my colleagues and I are even more concerned about your total education — your moral, social, cultural, ethical and physical development.

The future standard of living of our country is in large measure related to the technological expertise and creativity of our engineers and scientists. More importantly the quality of life in our future world is going to be largely related to how liberally educated and how humanized our engineering and science graduates are.

I would like to tell you a story. It's about a wise man who lived long ago and very far away. This wise man was very kind and loving and was, consequently, much beloved by the people of this ancient land.

In this same land, there was a nobleman, a prince, who hated this wise man. He saw the wise man as taking from him the love of the people. The people listened to the wise man, not the prince, and that angered the prince beyond belief.

One day, the prince said to his followers, "I have a plan whereby I can discredit the wise man; a way in which I can make him appear to be a fool.

"Each day, the wise man goes to the marketplace where he speaks to the people and gives them advice. Tomorrow, when the people gather, I will go to the square disguised as a peasant. In my hand I shall hold a white dove. When the crowd has gathered, I shall raise my voice above the crowd and say, 'Wise man! I have a simple question for you. This dove which I hold in my hand - is it alive or dead?'"

"Now, while this appears a simple question, it is not, for if he says it is dead, I will open my hand and let the bird fly away. If he says it is alive, however, I will crush the bird in my hand and let it fall dead to the ground. Either way, he will be mistaken; either way he will appear to have made a mistake; either way it will appear that he cannot even tell the difference between a living and a dead bird; either way he will be discredited in the eyes of the people and will lose their love."

The next day, and true to his word, the prince disguised himself as a peasant and, taking a white dove, he went to the marketplace. There he waited until the crowd had gathered and the wise man appeared. He made his way to the front of the crowd and raised his voice.

"Wise man!" he shouted, "I would ask you a simple question. This dove which I hold in my hand, is it alive or is it dead?"

The crowd grew quiet, and all eyes turned toward the wise man. The wise man paused, looked at the prince, and said, "That which you hold in your hand. It is . . . what you make of it."

It is what you make of it, a wise answer from a wise man. Whether the dove which the prince held was alive or dead depended upon the prince and what he did with what he had. Your life and our world is largely what you make of it.

If you had a bank that credited

President Hulbert welcomes class of 1990.

your account each morning with \$86,400, that carried over no balance from day to day, and allowed you to keep no cash in your account, and every evening canceled whatever part of the amount you had failed to use during the day, what would you do? Draw out every cent, of course!

Well, you do have such a bank, and its name is "time." Every morning it credits you with 86,400 seconds. Every night it rules off, as lost, whatever of this you have failed to invest to good purpose.

If you fail to use the day's deposits the loss is yours.

Take Time

Take time to live; it is one secret of success.

Take time to think; it is the source of power.

Take time to play; it is the secret of youth.

Take time to read; it is the foundation of knowledge.

Take time for friendship; it is a source of happiness.

Take time to laugh; it helps lift life's load.

Take time to dream; it hitches the soul to the stars.

Take time to worship; it is the highway to reverence.

Take time to pray; it helps bring God near and washes the dust of earth from our eyes.

Have a vision. Some years ago, in a federal courtroom in New York, a sarcastic district attorney presented to a jury a glass gadget which looked something like a small electric light bulb. With masterly scorn he accused the defendant of claiming that by use of this "worthless" device, the human voice would some day be transmitted across the Atlantic. He said that gullible investors had been persuaded by such preposterous claims to buy stock in a company and urged prison terms for the defendant and his partners. Two of the associates were convicted, but the inventor got off with a severe lecture from the judge.

The defendant in this case was Lee DeForest; the "worthless glass bulb" was the vacuum tube.

Believe in yourself. A Kansas City newspaper editor studied the sketches handed to him by the young man, then shook his head. Not only did he reject the application for a job, but told the artist he had no talent.

Faith in his own ability led the artist to try other offices, but the results were the same. Finally he secured a job drawing publicity material for churches. The young man rented a mice-infested garage and there turned out his sketches. He also continued to produce free-lance material and eventually his work began to find a market.

More than 50 years ago Walt Disney became famous and so did one of the mice in that garage where he had received the inspiration for his Mickey Mouse series.

Remember, failure in one thing often leads to outstanding success in something else.

More than a century ago there was a young chemistry instructor named William Perkins at the Royal College of Science in London. He used his spare time in a home laboratory to experiment with coal tars. He was searching for a way to produce a synthetic quinine, since the natural drug made from the bark of the cinchona tree had to be imported from South America and was unduly expensive.

One evening, after a whole day of futile labor, he had only a beaker of dirty aniline oil to show for his efforts. For some reason, perhaps to make the vessel easier to clean, he decided to dilute the oil with alcohol before tossing the mixture into the sink. To his wonder and delight, the alcohol changed the colorless oil into a deep, beautiful purple. Unwittingly he had made the first synthetic coal tar dye.

William Perkins failed in his search for a synthetic quinine, but he succeeded in discovering the basis for the great coal tar industry which has given the world innumerable products — dyes, perfumes, pharmaceuticals and many others.

Also remember, even the best make mistakes sometimes. One afternoon Mark Twain observed a tall, thin man with kindly blue eyes and eager face, coming up the path with a strange contraption under his arm. Yes, it was an invention, and the man explained it to the humorist, who listened politely but said he had been burned too often.

"But I'm not asking you to invest a fortune," explained the man.

"You can have as large a share as you want for \$500." Mark Twain shook his head; the invention didn't make sense. The

tall, stooped figure started away.

"What did you say your name was?" the author called after him.

"Bell," replied the inventor a little sadly, "Alexander Graham Bell."

Find inspiration in the world around you. A great musician one day visited the celebrated painter Matisse at his home on the shores of the Mediterranean. He asked Matisse, "What is your inspiration?"

"I grow artichokes," replied Matisse. "Every morning I go into the garden and watch these plants. I see the play of light and shade on the leaves and I discover new combinations of colors and fantastic patterns. They inspire me. Then I go back into the studio and paint."

Surely, if artichokes can provide inspiration for a great artist, the common things of life we so often overlook must hold much of inspiration for us.

Avoid bad habits. An old story tells of a father who, in guiding his son, told him to drive a nail into a post every time he did a good act. The son did so, but regretted he could not pull out the nail holes. So with the record of every life. We may amend, change our program, turn over a new leaf — but some flaws remain. Habits long continued become hard to break. The nail holes stay, and they remind us of bad decisions.

Members of the Class of 1990, my hopes and aspirations for you are summarized in a prayer, reportedly written by General Douglas MacArthur entitled, "When a Father Prays".

"Build me a son, O Lord, who will be strong enough to know when he is weak, and brave enough to face himself when he is afraid; one who will be proud and unbending in honest defeat, but humble and gentle in victory.

"Build me a son whose wishes will not take the place of deeds, whose wishbone will not be where his backbone should be; a son who will know Thee — and that to know himself is the foundation stone of all true knowledge.

"Lead him, I pray, not in the paths of ease and comfort, but under the stress and spur of difficulties and challenge. Here let him learn to stand up in the storm; here let him learn compassion for those who fail.

"Build me a son whose heart will be clean, whose goal will be high; a son who will master himself before he seeks to master other men; one who will learn to laugh, yet never forget how to weep; one who will reach far into the future, yet never forget the past.

"And after all these things are his, add, I pray enough of a sense of humor so that he may always be serious, yet never take himself too seriously. Give him a touch of humility, so that he may always remember the simplicity of true greatness, the open mind of true wisdom, and the meekness of true strength.

"Then, I, his father, will dare, in the sacred recesses of my own heart, to whisper, 'I have not lived in vain.'"

Parents' Orientation Program

Wednesday, September 3

National

CONGRESS RATIFIES \$678 MILLION IN EDUCATION CUTS

After a U.S. Supreme Court decision giving Congress 60 days to either confirm or reallocate education funds cut from the federal budget under the Gramm-Rudman-Hollings act, legislators overwhelmingly voted to let the cuts, first imposed last March, stand despite protests from college lobbyists.

Congress is still debating whether to go through with much more drastic college program cuts mandated by the now-toothless law this summer.

PLAN TO REQUIRE 'C' GRADES FOR FINANCIAL AID APPARENTLY DIES

College lobbyists say none of the members of the House-Senate conference committee soon to start working on a final version of the Higher Education Reauthorization Act favor an administration-backed amendment to cut students with less than a 2.0 GPA off from federal student aid after their first year of college.

PAPERWORK AND LOAN PROCESSING MAY DELAY STUDENT AID THIS FALL

Financial aid officers, meeting in Dallas, said the Education Department's new procedures for processing student aid applications will delay getting money to thousands of students this fall.

1986 Rose Football Preview

The Rose-Hulman Institute of Technology football team officially began its preparation for the 1986 season when all players reported to pre-season camp Aug. 17 for physical examinations and agility testing.

The Fightin' Engineers began their first full day of practice on Aug. 18 with two sessions beginning at 9 a.m. and 3 p.m., according to first-year Head Coach Scott Duncan.

Duncan and his staff expected 92 players to be in camp, including 27 freshmen. The Engineers return 40 lettermen and 16 starters from last year's 4-5 team which finished in a tie for third place in the College Athletic Conference with a 2-2 mark.

Rose-Hulman had three weeks to prepare for its season opener against MacMurray College at Phil Brown Field. The Engineers travel to Hanover College the following week then return home for consecutive games against Washington University, Principia College and Olivet (Mich.) College.

Rose-Hulman rounds out its 1986 schedule with road games at Taylor, Earlham College, Centre College and Sewanee. The Engineers play their season

finale against Rhodes College on Nov. 8.

Top players returning for the Engineers this season include senior offensive right tackle Bruce Fenimore (6-1, 230, Rushville), an all-CAC selection in 1985. He is one of five returning starters on an offensive line that helped produce an average of 218.8 yards per game, 11th best among NCAA Division III teams last season.

Also returning on offense this season for the Engineers are senior fullback William Sears (6-2, 200, New Whiteland) and junior running back John Collett (6-0, 215, Terre Haute). Sears, an honorable mention all-CAC pick last season, led Rose-Hulman in rushing with 466 yards on 69 carries for a 6.7 per game average. Collett, an all-state player at Terre Haute North Vigo High School, had 233 yards rushing and four touchdowns in 1985.

Expected to quarterback the Engineers this season is sophomore Jason Duff, (6-2, 170, New Castle). He rushed for 140 yards and three touchdowns and passed for 179 yards and one touchdown last year, despite seeing limited action due to a knee injury.

Defensively, Rose-Hulman has eight starters returning from last year's squad, including junior end Doug Ankney (6-1, 205, Brazil), an honorable mention all-CAC selection last season. He had 90 tackles, 13 tackles for loss, five sacks and two interceptions.

Senior Grant Sharp (5-9, 170, Cincinnati, Ohio), will return to handle the punting duties this season. The Little College All-American also is expected to place kick for the Engineers. Last season he punted for an average of 37.7 yards per game and connected on 6-of-6 extra point kicks.

Among the freshmen who will play for Rose-Hulman this season, two participated recently in the North-South High School All-Star Game. Offensive lineman Brian Runkle (6-2, 220, Macy), of North Miami High School and wide receiver Brian Meek (6-3, 175, Fillmore), of South Putnam High School saw action in the annual event.

"I feel very good about our team's chances in 1986," said Duncan, a former assistant coach with Bowling Green State. "I expect us to be in every game we play. We have a good group of veterans coming back and a lot of talented freshmen."

Jason Duff, number 11, is expected to be Rose's starting quarterback this year. Duff is a 6-2, 170-pound sophomore from New Castle. Last year Duff was 11 of 27 for 179 yards and threw two interceptions. As a runner, he netted 140 yards on 30 rushes (4.6 per carry) and scored three touchdowns. The chemical engineering major missed the last two games of the 1985 season due to a knee injury. Coach Scott Duncan will take Duff and the Engineers up against MacMurray College's Fighting Highlanders (2-4 last year). This will be the first meeting between the two schools.

1986 SENIORS — First row, from left: Grant Sharp (EE from Cincinnati), Rich Jaslowski (ME from Chicago), Bruce Fenimore (CE from Rushville), Gil Keller (EE from Cincinnati), Don Hirt (ME from Fort Wayne); second row: Ken Hackman (ME from Brownstown), Trent Bennett (CE from Culver), Paul Romanetz (ME from Elkhart), Jim Crumley (ME from Speedway), Scott Pfaff (CS from Cincinnati), Tim Rauch (EE from Crawfordsville); third row: Gary Martin (EE from Warner Robins, GA), William Sears (PH from New Whiteland), Jeff Bannister (EE from Highland), John Kantner (ME from Monroe), Greg Ankey (EE from Brazil) and Frank Primich (EE from Merrillville).

COLLEGE FOOTBALL ASSOCIATION
PROPOSES BARRING BOOSTERS FROM
RECRUITING

The CFA, which includes most of the nation's major college football powers, proposed at its recent convention to simply ban boosters — who've been implicated in giving cars and cash to prize recruits — from talking to prospective college athletes while representing CFA member schools.

PROPOSED COMMISSION TO STUDY
IMPACT OF INTERCOLLEGIATE SPORTS

Hoping to "decommercialize" college athletics, Rep. Tom Luken (D-OH), has introduced a bill to establish a 15-member advisory commission encouraging colleges to reemphasize education over sports.

U. MINNESOTA STUDENTS WORRY ABOUT
THEIR NEW DORM MATES

The dorm council of Centennial Hall, where the men's basketball team will move next fall, asked administrators to outline how they intend to control team members and what precautions they'll take to avoid problems.

Last year, several team members were implicated in alleged instances of sexual assault. "I would feel really insecure," student Jane O'Donnell told the student paper.

Humor

Frosh "O" Schedule

Wednesday, September 3

- 9:00 - 11:00 a.m. Registration and Reception - in your assigned dorm. Find out whether your roommate is a geek, jock, loser or party animal. Normal roommates are very rare. Students staying in the Mom-Pop-Siblings dorm (commuters) should meet in the Student Union, lower level.
- 9:30 - 11:30 a.m. Campus tours - Learn where stuff is. (Real hard)
- 11:00 a.m. - 1:15 p.m. Lunch - Main Dining Room. There's supposed to be a schedule, but it'll be utter confusion.
- 1:30 - 2:00 p.m. Opening Session - Sam tells stories.
- 2:15 - 3:30 p.m. Freshman Information Session - Moench Hall Auditorium. More stuff to learn.
- 3:30 - 4:00 p.m. Workstudy meeting in Auditorium. Choose your career for the next nine months.
- 4:00 - 4:45 p.m. Free Time - Gobots or Transformers should be on.
- 4:00 - 5:00 p.m. Commuting students meet in Union snackbar. Even more stuff to learn.
- 4:45 - 6:15 p.m. Dinner - Main Dining Room. Now that the parents are gone, they bring out what they normally serve.
- 6:30 - 9:00 p.m. Chemistry Placement Exam in Moench Hall Auditorium. Time to die, kiddies.

Thursday, September 4

- 7:00 - 8:30 a.m. Breakfast - Main Dining Room. Scrambled eggs from a carton.
- 8:00 - 11:00 a.m. Computer Science Placement Exam (optional) in Auditorium of Moench Hall. Chance to test out of a boring class.
- 11:00 a.m. - noon Brainwashing Seminar Number One. GM room of Moench Hall.
- 11:00 a.m. - 12:45 p.m. Lunch - Main Dining Room. It won't be as good as your first meal here.
- 12:00 - 1:00 p.m. Brainwashing Seminar Number Two. GM room of Moench Hall.
- 12:00 - 5:30 p.m. Student mug shots. Stop by for a photo that is with you for the next four years.
- 1:15 - 4:15 p.m. Advanced Math Placement Exam (optional) in Moench Hall Auditorium. Geeks and gunners.
- 4:00 - 5:00 p.m. Brainwashing Seminar Number Three. GM room of Moench Hall.
- 5:00 - 6:00 p.m. New Games - Playing with Woodsies.
- 6:00 - 7:00 p.m. Cookout by the Union. Some charred animal flesh to tide you over 'till breakfast.
- 7:00 - 9:30 p.m. Dance with the Woodsies.

Friday, September 5

- 7:00 - 8:30 a.m. Breakfast, again.
- 8:00 - 9:00 a.m. Transfer Credit evaluation and Advanced Placement (AP) evaluation. GM room of Moench Hall. Time to start getting out of classes.
- 9:00 - 9:30 a.m. Foreign Language program description (optional) in Auditorium of Moench Hall. Pick your poison.
- 9:30 - 10:30 a.m. Foreign Language placement exam (optional) in GM room of Moench Hall. High school French and Spanish are worthless.
- 10:45 a.m. - 12:15 p.m. Foreign Language aptitude test (optional) in GM room of Moench Hall. They really want people in the Foreign Language program.
- 11:30 a.m. - 1:30 p.m. Lunch - Peanut butter and jelly if all else fails.
- 12:45 - 2:45 p.m. General Orientation Session - Everything you need to know to get totally confused.
- 3:00 - 6:30 p.m. Advanced physics placement exam (optional) in room 203 of Olin Hall. The few, the brave, the gunners.
- 3:30 - 4:30 p.m. Brainwashing Seminar Number Four. GM room of Moench Hall.
- 5:00 - 7:00 p.m. Dinner - They have a seating plan, but it'll be utter confusion once again.
- 6:30 - 7:30 p.m. Ice Cream Social. See what profs are really outgoing people.
- 8:00 - 10:00 p.m. Movie at the Woods. Chance to look over their security.

Saturday, September 6

- 7:00 - 8:30 a.m. Breakfast - Sleep through it.
- 9:00 a.m. - noon Class registration. They tell you what you are going to take. Upperclassmen scheduled last spring, so you don't have much to choose from.
- 11:00 a.m. - 1:00 p.m. Lunch - Oh boy.
- 1:30 p.m. Football - time to check out the cheerleaders we import from ISU. If you want to write a story on the game, have it in the Thorn office by 6 p.m. Monday night.
- 7:30 - 9:00 p.m. SAB comedy in the Main Dining Room.

Sunday, September 7

- 8:15 - 8:45 a.m. Breakfast - more eggs from a carton.
- 1:30 p.m. - 3:00 p.m. Student Activities Fair - join or else.
- 7:30 - 9:30 p.m. Movie in GM room. If you don't like the film, stay in the dorm and watch HBO.

Monday, September 8

- 8:05 a.m. Classes start (Upperclass students won't have theirs until later, since we know not to schedule early classes.)
- 5:00 p.m. First freshman decides he can't hack it and heads home.
- 6:00 p.m. We get chewed out by advisor for writing this.
